

CLARIFICATION TO VMR0006 METHODOLOGY FOR INSTALLATION OF HIGH EFFICIENCY FIREWOOD COOKSTOVES, V1.1

Publication date: 31 October 2022

This document provides a clarification applicable to VMR0006, *Methodology for Installation of High Efficiency Firewood Cookstoves, v1.1*. This clarification is effective on its issuance date. Project proponents and validation/verification bodies shall apply and interpret VMR0006, *Methodology for Installation of High Efficiency Firewood Cookstoves, v1.1* consistent with the clarification set out in this document. The clarification will be incorporated into the next issued version of VMR0006.

Clarification	Description	Document and Section Reference	Effective Date
Clarification 1	Clarifying applicability condition	VMR0006, v1.1, Section 4, Applicability Conditions	31 Oct 2022

1.1 Background

Applicability condition 1 unintentionally limits the scope of the methodology. This condition is clarified to align with the broad applicability of the underlying CDM small-scale methodology *AMS-II.G. Energy efficiency measures in thermal applications of non-renewable biomass*.

1.2 CLARIFICATION: VMR0006, Section 4, Applicability condition expanded

Applicability condition 1 shall be read as follows (revised text shown in red and deleted text shown with strikethrough):

- Project activities ~~shall be implemented in~~ **must introduce efficiency improvements in thermal applications of non-renewable biomass in the following premises: domestic premises, or in households, community-based kitchens-, institutions (e.g., schools) or small and medium-sized enterprises (SMEs).**
